

CONFIDENTIAL

12 March 1979

MEMORANDUM FOR: Chairman, NFIB Working Group
on Compartmentation

FROM:

[REDACTED]

Action Officer, Panel #1

25X1

SUBJECT: Draft APEX Industrial Security Manual

1. Attached is a "strawman" draft of the APEX Industrial Security Manual which we are concurrently distributing to our panel members. Based on what we believe is the thinking of Panel #6, we did not make provisions for [REDACTED] in this draft.

25X1

2. Panel #1 is still reviewing the basic APEX Security Control System Manual and hopes to be finished with line-by-line review by 16 March 1979. Thus far, no major revisions have been made to the draft originally submitted; however, we are adding a chapter on Security Education and have included the text of both DCID 1/14 and DCID 1/20 to the original Chapter VIII, Security Standards for Access Approval.

3. We plan to start review of the industrial manual on 20 March.
